“We shape our homes and
then our homes shape us.”

– Winston Churchill

OUR HISTORY

Southern Shutter Company, founded in 1964 as a family-owned business, remains so 60 years later. Southern Shutter Company has an earned reputation for producing custom interior and exterior window treatments of the highest quality – maintaining the highest standards in both materials and workmanship.

Everything we build is hand crafted and built to last a lifetime.

Timeless dedication to excellence in manufacturing, materials and workmanship make Southern Shutter Company the national leader in the shutter industry.

We're driven by the passion for creating pieces as functional as they are beautiful. Each product is a hand-crafted piece of art built to last a lifetime.

PREMIUM FIBERGLASS COMPOSITE AND WOOD SPECIES AVAILABLE

DESIGNED TO LAST A LIFETIME

Southern Shutter Company products are handcrafted by shutter professionals in our Montgomery, Alabama factory utilizing select materials and unmatched standards. Sixty years of manufacturing experience combined with state-of-the-art technology enable production in a wide variety of standard customizable designs as well as historic matching/replication down to the last detail.

Our Premium Fiberglass Composite collection is constructed with the same attention to detail, resulting in a premium, rot free, alternative to wood.

THOUGHTFULLY
CRAFTED

_____ **A house is not a home
until it reflects those inside.**

Specialized CNC equipment coupled with AutoCAD design enables Southern Shutter Company to offer almost unlimited customization throughout the manufacturing process. Customers can pre-finish projects with a choice of national paint brand colors or match to swatch. Both functional and simulated function shutters require the right hardware to enhance appearance of any facade. Let our shutter professionals thoughtfully craft your quality shutter project.

With seven standard interior shutter designs, 17 standard exterior shutter designs and ventilators of all configurations, Southern Shutter Company will meet almost any architectural specifications for custom orders.

FIXED LOUVER *SHUTTERS*

———— Louvered exterior shutters offer a traditional, classic aesthetic that has been a design staple since Ancient Greece.

Crafted to be as functional as they are beautiful, fixed louver shutters are designed to hang on functional hardware. Shutters are built to exact size to perfectly fit each window. Every feature can be specified: louver size, number and placement of cross rails, endless color options.

Beauty lives in the details of these shutters. The angles created by the hand placed louvers bend light and shadows into lines that enhance any facade. Functional hinge mounting adds a true beauty and 3rd dimension that shouts authenticity and function.

MOVABLE LOUVER SHUTTERS

Movable louver shutters grace historic homes and new structures alike. An early design that evokes the historic charm of New England and Southern styled homes. The authenticity of the movable louver shutters and functional hardware bring a welcoming aesthetic of a slower and sweeter way of life.

A favorite of designers, movable louvers are often used to enclose porches and outdoor spaces to create a cottage feel while helping control the elements and privacy.

BOARD & BATTEN SHUTTERS

Board and batten shutters are manufactured in a customizable design. The number of vertical boards can be specified along with batten placements, allowing this shutter to be tailored to match windows of all shapes and configurations.

Board and batten shutters offer a unique aesthetic sure to enhance cottage, farm house, French colonial and many other architectural styles.

BAHAMA SHUTTERS

Bahama shutters are regularly used to invoke a coastal cottage charm in a beach setting. Modern architectural styles also utilize this style to add color, depth and texture to modern facades. Top mounted bahama shutters may be used in various lengths to add a decorative element to porch structures as well as any window. The spandrels (top of porch) application and partial window coverage are a few of our favorite applications.

Shutter walls/blinds are a perfect solution to provide privacy or shading for outdoor spaces.

Interior Movable Louver with 2-1/2" Louver

While clean and crisp white has been a common feature of interior shutters, darker colors and natural stains have modernized this classic style.

SHUTTER SETS

The classic look of the interior bi-fold shutter set is sure to enhance the décor of any home or office. The 1-1/4" slats give this wood shutter set an old world charm. Designed to cover only the bottom half of the window or to be double hung.
